Contents

1.0 GENERAL INFORMATION:……1-1

1.1 INTRODUCTION…….....…….…..…..…….. 1-1
1.1.1 Purpose of the Manual…… 1-1
1.1.2 Use of the Manual……..……..1-1
1.1.3 Authority (Governing Regulations)…….. 1-2
1.1.4 Fines and Penalties…… 1-2

1.2 ACRONYMS AND DEFINITIONS…….…….…….....1-3
1.2.1 Purpose……..1-3
1.2.2 Word Usage…….…… 1-3
1.2.3 Abbreviations…….…….... 1-3
1.2.4 Acronyms…….…….....1-4
1.2.5 Definitions…….....1-5

1.3 DEVELOPMENT PROCESS……..…….…….....1-24
1.3.1 Overview…….…...1-24
1.3.2 Site Plan Project…….. 1-24
1.3.2.1 Rezoning……..……...…….1-24
1.3.2.2 Permitted Uses……...1-24
1.3.2.3 Conditional Uses…….....1-24
1.3.2.4 Traffic Study…….. 1-25
1.3.2.5 Development Committee…….…….....1-25
1.3.2.6 Engineering Plans…….... 1-26
1.3.3 Subdivision……1-26
1.3.3.1 Rezoning……...……..... 1-26
1.3.3.2 Lot Layout Plans…….…….. 1-26
1.3.3.3 Preliminary Plat…….…….... 1-27
1.3.3.4 Engineering Plan…….....1-27
1.3.3.5 Final Plat…….…….…….…1-27
1.3.3.6 Bonding……...……... 1-27
1.3.3.7 Traffic Study……..... 1-28
1.3.3.8 Development Committee…….……..……1-28
1.3.4 Development Review Team (DRT)……..… 1-29
1.3.4.1 DRT Process Overview……..... 1-29
1.3.4.2 Pre-construction Meeting…… 1-30
1.3.4.3 DRT Submittal Requirements……..... 1-30
1.3.4.4 DRT Forms and Checklists……..... 1-32
1.3.4.5 Final Approval……...……...…..……...…1-33
1.3.4.6 DRT Process Flowchart……...…..... 1-33
1.3.5 Permits…….……..1-35
1.3.5.1 Demolition Permit……...……...…1-35

Contents

1.3.5.2 Burn Permit……..……..……1-35
1.3.5.3 Erosion and Sedimentation Control Permit……..…….....1-35
1.3.5.4 Clearing, Grading, and Utility Permit……..... 1-36
1.3.5.5 AWWB Water Main Connection Permit……1-36
1.3.5.6 Blasting Permit……..…….....1-37
1.3.5.7 Zoning Certificate……...…….…..... 1-37
1.3.5.8 Building Permit……...……..…… 1-37
1.3.5.9 Sign Permit……...……...…..……1-38
1.3.5.10 Sanitary Sewer Connection Permit…….……...….....1-38
1.3.5.11 Other Permits……...……...….....1-38

1.4 PROJECT COMPLETION REQUIREMENTS – CONSTRUCTION…..……..... 1-40
1.4.1 Approved Plans and Revisions……..…….....1-40
1.4.2 Materials…….……...……..…1-40
1.4.2.1 Submittals…….....……...……1-40
1.4.3 Installation Requirements…….……..…….....1-41
1.4.4 Inspection and Testing…..…….……..……..... 1-41
1.4.5 Contacts……..…….……..……..... 1-41

1.5 PROJECT COMPLETION REQUIREMENTS – AS-BUILT DRAWINGS…..……....1-42
1.5.1 Surveying……..……..... 1-42
1.5.2 Engineering ……..……...……..…. 1-45
1.5.3 Submittal…….……..……..... 1-46

1.6 PROJECT COMPLETION REQUIREMENTS - EASEMENTS…….....1-48
1.6.1 Discussion...……..……..... 1-48
1.6.2 Dedication by Document……...……..…..… 1-49
1.6.3 Dedication by Plat…….……..……..... 1-49
1.6.4 Easement Language…….…….……..……..... 1-50

1.7 PROJECT COMPLETION REQUIREMENTS – AGREEMENTS.……..... 1-51
1.7.1 Hold Harmless and Indemnity……..……..... 1-51
1.7.2 Easement Encroachment..……...……..…..… 1-51

1.8 PROJECT COMPLETION REQUIREMENTS – ACCEPTANCE..……..... 1-52
1.8.1 Authorities..……..……..... 1-52
1.8.2 Preliminary Acceptance...……...……..…..… 1-52
1.8.3 Final Acceptance……...……...……..…..… 1-53

1.9 PROJECT COMPLETION REQUIREMENTS – WARRANTY PERIOD…….....1-54

Contents

1.10 PROJECT COMPLETION REQUIREMENTS – FEES AND CHARGES..……....1-55
1.10.1 Discussion...……..……..... 1-55
1.10.2 Water and Sewer Fee Estimates……...……..1-55

1.11 UPDATES AND WAIVERS TO THE MANUAL……...……..... 1-56
1.11.1 Updates……..…….....1-56
1.11.2 Project-Specific Waivers……...……..…….1-56
1.11.2.1 Waiver Criteria……..……1-56
1.11.2.2 Procedure……...…… 1-56

Appendix A.
A-1 Site Development Application for DRT Submittal
A-2 Subdivision Application for DRT Submittal
Appendix B.
B-1 Site Development Plans Engineering Checklist
B-2 Subdivision Construction Plans Engineering Checklist
B-3 Site Plan Sufficiency Checklist
B-4 Drainage Checklist and Stormwater Drainage Forms
B-5 Signature Bond for Development
Appendix C. Hold Harmless Agreement
Appendix D. Easement Encroachment
Appendix E.
E-1 Request for Design and Construction Standard Waiver Form
E-2 Amendments

2.0 TRAFFIC SIGNAL DESIGN GUIDELINES:…….. 2-1

2.1 SIGNAL DESIGN ELEMENTS……...…….. 2-1
2.1.1 Signal Heads…… 2-1
2.1.2 Signal Supports…… 2-1
2.1.3 Cabinet and Controller Equipment……..…… 2-2
2.1.4 Communications…….…….....2-2
2.1.4.1 Extension of Existing System……..……..…….…… 2-2
2.1.4.2 New System Implementation……....…….……2-3
2.1.5 Signal Wiring, Conduit and Junction Boxes……..... 2-3
2.1.6 Power Supply……...…… 2-4
2.1.7 Vehicle Detection…….……..... 2-4
2.1.7.1 Stop Line Detection…….……..…….…… 2-5
2.1.7.2 Advanced Detection……..…….…….…….…….....2-5
2.1.7.3 Video Detection...…….…….…….…….....2-5
2.1.7.4 Wireless Detection...…….…….…….…….....2-6

Contents

2.1.8 Railroad Pre-Emption……2-6
2.1.9 Intersection Signage……2-6
2.1.10 Pedestrian Signal……2-7
2.1.10.1 Warrants……2-8
2.1.10.2 Sequence……2-8
2.1.10.3 Timing……2-8
2.1.11 Intersection Lighting……2-9

2.2 SIGNAL TIMING……2-10
2.2.1 Cycle Lengths……2-10
2.2.2 Actuated Timing Parameters……2-10
2.2.3 Signal Timing Plans……2-10

2.3 PLANS PRODUCTION……2-11
2.3.1 Traffic Signal Notes……2-11
2.3.2 Signal Plan……2-11
2.3.2.1 Installation Notes……2-11
2.3.2.2 Signal Head Displays……2-11
2.3.2.3 Signage Displays……2-12
2.3.2.4 Pre-Emption Phasing Diagram……2-12
2.3.2.5 Signal Sequence Chart……2-12
2.3.2.6 Conflict Monitor Chart……2-12
2.3.2.7 Wiring Diagram and Table……2-12
2.3.2.8 Materials List……2-12
2.3.3 Details and Standard Drawings……2-13
2.3.4 Communication Plan……2-13

2.4 CONSTRUCTION……2-14
2.4.1 Materials Submittal……2-14
2.4.2 Test Requirements……2-14
2.4.3 Inspection……2-14
2.4.4 Closeout……2-15

Appendix F. Traffic Signal Plans Submittal Checklist
Appendix G. Traffic Signal Notes
Appendix H. Signal Details and Standard Drawings

3.0 TRAFFIC CALMING:……**3-1**

3.1 TRAFFIC CALMING PROCESS SUMMARY……3-1

3.2 EXISTING CONDITION ANALYSIS……3-2

Contents

3.2.1 Minimum Vehicular Volume……..……...……...……..… 3-2
3.2.2 Speed……..……...……...……3-2
3.2.3 Cut Through Traffic…….……..……3-2
3.2.4 Accidents……..……..…… 3-3
3.2.5 Street Grades and Alignment……...……...……...3-3
3.2.6 Transit, School and Emergency Routes……...……..…… 3-3

3.3 RESULTS OF TRAFFIC CALMING ANALYSIS…….…….....3-4

3.4 NEIGHBORHOOD PETITIONS AND COST SHARE……..…… 3-5
3.4.1 Standard Materials…….……..…….…3-5
3.4.2 Landscaping……...……..…… 3-5
3.4.3 Exceptions – Special Material/Landscaping Requests…….…..…..… 3-5

3.5 REVIEW AND ANALYSIS OF APPLIED SOLUTIONS……..……...……. 3-7
3.5.1 Removal……3-7
3.5.2 Re-Evaluation……..……. 3-7

3.6 CONSTRUCTION……..……..……...… 3-8
3.6.1 Material Submittal……..……..…….. 3-8
3.6.2 Test Requirements……..……..... 3-8
3.6.3 Inspection……..3-8
3.6.4 Maintenance…… 3-8

Appendix J. Examples of Traffic Calming Measures

4.0 TRAFFIC IMPACT STUDIES:……4-1

4.1 TRAFFIC IMPACT STUDY REQUIREMENTS.....4-1
4.1.1 General……..……..... 4-1
4.1.2 Applicability……..……...…… 4-1
4.1.3 Applicant Responsibility……..…..…… 4-2
4.1.4 Capacity and Safety Issues…….…… 4-3
4.1.4.1 Vehicular Traffic Improvements…….……...4-3
4.1.4.2 Pedestrian Traffic Considerations and Improvements…….....4-3
4.1.4.3 Bicycle Traffic Improvements……..……...……... 4-3

4.2 TRAFFIC IMPACT STUDY PROCEDURES AND CRITERIA…….……...….4-4
4.2.1 Scoping Meeting/Telephone Conference……..…….…. 4-4
4.2.2 Evaluation Elements……..……..4-5
4.2.3 Roadway Traffic Volumes/Traffic Counts……..……...…… 4-5
4.2.4 Intersection and Approach Level of Service……..……... 4-6

Contents

4.2.5 Trip Generation Rate……... 4-6
4.2.6 Preliminary Land Use Assumptions……..... 4-7
4.2.7 Trip Generation Table……..…….... 4-8
4.2.8 Trip Distribution……..…..... 4-8
4.2.9 Requirements for Additional Lanes...……... 4-8
4.2.10 Intersection Delay..…….…..... 4-8
4.2.11 Driveway Access…….…...……..4-9
4.2.12 Traffic Signals..……..……... 4-9
4.2.13 Mitigation Thresholds and Measures..……..... 4-10
4.2.14 Traffic Signal Operations Improvements..……..... 4-10
4.2.15 Geometric Improvements..…… 4-10
4.2.16 Pedestrian/Bicycle Improvements…….…….…..4-11

4.3 TRAFFIC IMPACT STUDY REPORT CONCLUSIONS…….…….…... 4-12
4.3.1 Geometric Improvements……..…..... 4-12
4.3.2 Responsibility……..…….…… 4-12

4.4 TRAFFIC IMPACT STUDY REPORT OUTLINE…….…….…. 4-13

5.0 ROADWAY DESIGN:…… 5-1

5.1 INTRODUCTION……...…….……..…… 5-1

5.2 ROADWAY DESIGN ELEMENTS……...……..…...5-2
5.2.1 Design Controls and Criteria……..... 5-2
5.2.1.1 Street and Road Classifications……...…….. 5-2
5.2.1.2 Design Vehicles……..…..……. 5-3
5.2.1.3 Design Speed…….……... 5-3
5.2.2 Horizontal Alignment…….…… 5-4
5.2.3 Vertical Alignment…….….....5-4
5.2.3.1 Sight Distance……...…… 5-4
5.2.3.2 Vertical Grade……..……5-4
5.2.4 Typical Street Section……..…… 5-4
5.2.4.1 Streets…….….... 5-5
5.2.4.2 Non-Curb and Gutter…….…..5-6
5.2.4.3 Sidewalks……..…..... 5-6
5.2.4.4 Irrigation……..…..... 5-10
5.2.5 Clear Zone……...…..…5-10
5.2.6 Driveways……..... 5-10
5.2.6.1 Design Criteria…….....5-10
5.2.6.2 Driveway Location…….…..5-11

Contents

5.2.6.3 Driveway Spacing……5-12
5.2.6.4 Driveway Alignment……..… 5-14
5.2.6.5 Shared Driveways……5-14
5.2.7 Bicycle and Pedestrian Facilities…….…….. 5-14
5.2.7.1 Shared Use Paths…….……..…..5-14
5.2.7.2 Bicycle Lanes…….…….…….. 5-15
5.2.7.3 Shared Roadway……...…….... 5-15
5.2.8 Cul-De-Sacs…….…….…5-15
5.2.9 Frontage Road/Service Drive……..…... 5-16
5.2.10 Median Openings…….……...…..…... 5-16

5.3 INTERSECTION DESIGN ELEMENTS…….…….……..5-18
5.3.1 Angle of Intersection……... 5-18
5.3.2 Development Entrances……... 5-18
5.3.2.1 Signs…….....5-18
5.3.2.2 Landscaping……..5-18
5.3.2.3 Islands……5-18
5.3.2.4 Irrigation……5-19
5.3.2.5 Gates…...……5-19
5.3.3 Sight Distance…….. 5-19
5.3.4 Roundabouts……5-21
5.3.4.1 Geometric Characteristics…….....5-21
5.3.4.2 Sight Triangle……5-22
5.3.4.3 Landscaping…….…5-22
5.3.5 Left and Right Turn Lanes ……...……...……... 5-22
5.3.5.1 Turn Lane Warrant Criteria… ……..... 5-22
5.3.5.2 Turn Lane Design Standards…….…… 5-23
5.3.5.3 Left Turn Lanes on Divided Roadways..…….…… 5-25

5.4 DESIGN OF UTILITIES OF STREET RIGHT-OF-WAY……..… 5-26
5.4.1 General Locations……...…… 5-26
5.4.2 General Requirements…… 5-28
5.4.2.1 Excavation and Backfill Requirements…….…… 5-28
5.4.2.2 Open Cut Installation…….…..... 5-28
5.4.2.3 Bore Installation……..…… 5-28
5.4.2.4 Utility Patch Repairs……5-29

5.5 DESIGN OF PAVEMENTS……..… 5-30
5.5.1 New Construction……..…….....5-30
5.5.1.1 Asphalt……...5-30
5.5.1.2 Concrete…….…... 5-30
5.5.2 Pavement Repairs/Retrofit……..... 5-30

Contents

5.5.2.1 Asphalt ……. 5-30
5.5.2.2 Portland Cement Concrete……..……..…….. 5-31

5.6 STREET LIGHTING……..…….……....5-32
5.6.1 Standard Cobra Head Fixture……..……..5-32
5.6.2 Standard Decorative Fixtures……..... 5-32
5.6.3 Light Plan Approvals…….…….…… 5-32
5.6.4 Decorative Pedestrian Lighting…….…… 5-33

5.7 SIGNING AND PAVEMENT MARKINGS……..…….…….…5-35
5.7.1 Street Name Signs…… 5-35
5.7.2 Regulatory Signs…….. 5-36
5.7.3 Application for Signs (New Development)…….…….5-36
5.7.4 Replacement for Decorative Signs…….……..…. 5-37

5.8 RIGHT-OF-WAY PLANTING……..…….…….…... 5-38

5.9 ACCESS MANAGEMENT AND COORDINATION……... 5-39
5.9.1 Transit Stops……. 5-40

5.10 CONSTRUCTION…….……..……..…. 5-41

5.11 PRIVATE STREETS…….……...……...……..…….5-42

5.12 GREENWAYS……...……...……..…….5-43

5.13 STREETSCAPE IMPROVEMENTS FUND.……...……..…….5-44

5.13 TRANSPORTATION IMPROVEMENTS FUND...……...……..…….5-45

Appendix K. Arterial Roads List
Appendix L. Collector and Residential Collector Roads List
Appendix M. Local Commercial/ Local Streets/ Cul-De-Sacs/ Alleys List
Appendix O. Street Details and Standard Drawings
Appendix P. Request for Installation of Traffic Signs
Appendix P-1. Irrigation Policy
Appendix P-2. Decorative Street Signs Policy
Appendix P-3. Downtown Sidewalks and Pedestrian Lighting Map
Appendix P-4. Decorative Pedestrian Lighting Master Plan
Appendix P-5. Turn Lane Requirements by Roadway

Contents

6.0 GEOTECHNICAL:…… 6-1

6.1 INTRODUCTION…… 6-1

6.2 RETAINING WALLS…….. ……..6-2
6.2.1 General Overview……..……..6-2
6.2.2 Internal and External Wall Stability ……..... 6-2
6.2.3 Geotechnical Investigation……. 6-2
6.2.4 Global Stability…… 6-3
6.2.5 Sliding, Overturning, Bearing Capacity, and Settlement…….. 6-3
6.2.6 Backfill Drainage behind Retaining Walls……..… 6-4

6.3 DAM DESIGN GUIDELINES…….....6-5
6.3.1 General Overview……...……. 6-5
6.3.2 Dam Classification……...…… 6-5
6.3.3 Classes of Dams…….…….. 6-5
6.3.4 Design and Safety Requirements…….…… 6-6
6.3.5 Hydrologic/Hydraulic Analysis……...…… 6-7
6.3.6 Inspection Guidelines……..6-7
6.3.7 Types of Inspections……...…..…… 6-8
6.3.8 Emergency Action Plan…….……..6-9

Appendix Q. Visual Inspection Checklist

7.0 DRAINAGE SECTION:…… 7-1

7.1 GENERAL.……...…….....…... 7-1
7.1.1 City Stormwater Management Manual……...…… 7-1
7.1.2 Policy and Criteria……..……. 7-1
7.1.3 Environmental Considerations …..……..…… 7-1
7.1.4 Computer Models……..…… 7-2

7.2 STORMWATER HYDROLOGY……..…..…..…7-3
7.2.1 Rainfall Estimation…….…..7-3
7.2.2 Rational Method…..……..…….... 7-4
7.2.3 NRCS Curve Number Methodology…….....7-5
7.2.4 United States Geological Survey Regression Equation…..……....….....7-6
7.2.5 Permeable Pavement…...……....….....7-8
7.2.6 Time of Concentration…….……7-8
7.2.7 Stormwater Runoff Hydrographs……..…… 7-10
7.2.8 Routing of Stormwater Runoff Hydrographs……..…7-10
7.2.9 Hydrologic Analysis for Design of Storm Sewer Systems……7-11

Contents

7.3 STORMWATER DRAINAGE SYSTEM DESIGN…….. 7-12
7.3.1 Stormwater Drainage System Components……7-12
7.3.2 Gutter Flow Calculations…… 7-13
7.3.3 Curb Opening Inlets…… 7-13
7.3.4 Design Frequency and Spread…… 7-14
7.3.4.1 Roadway Inlets…….. 7-15
7.3.4.2 Inlet Spacing……. 7-16
7.3.5 Bridge Decks…… 7-16
7.3.6 Storm Sewer Pipes…… 7-16
7.3.6.1 Manning's "n" Values…… 7-16
7.3.6.2 Slopes and Hydraulic Gradient…… 7-16
7.3.6.3 Storm Sewer Pipe Size, Length and Access Spacing……7-17
7.3.6.4 Minimum Clearances…….. 7-17
7.3.7 Roadside Ditches…… 7-18
7.3.7.1 Design Criteria…… 7-18
7.3.8 Culverts…… 7-19
7.3.8.1 Discharge…….. 7-19
7.3.8.2 Culvert Material…… 7-20
7.3.8.3 Length and Slope…….. 7-20
7.3.8.4 Velocity Limitations…….. 7-20
7.3.8.5 Outlet Protection…….. 7-20
7.3.8.6 Design Calculations……..7-21

7.4 HYDRAULIC DESIGN OF STORMWATER STORAGE SYSTEMS…….. 7-22
7.4.1 Comparison Points…….. 7-22
7.4.2 Types of Storage Systems……7-22
7.4.2.1 Detention Basins……7-23
7.4.2.2 Retention Basin…… 7-23
7.4.2.3 Underground Detention Systems…….. 7-23
7.4.2.4 Regional Detention…….. 7-24
7.4.3 Storage Design……..7-25
7.4.3.1 Length to Width Radio……7-26
7.4.3.2 Release Rate……... 7-26
7.4.3.3 Detention Volume……..……...7-26
7.4.3.4 Depth…….. 7-26
7.4.3.5 Outlet Works……..7-26
7.4.3.6 Sediment Storage…….. 7-26
7.4.3.7 Outlet Protection……..…… 7-27
7.4.3.8 Routing Techniques……..7-27
7.4.3.9 Stage-Storage and Stage-Discharge……..…..7-27
7.4.3.10 Storage Basin Safety……..7-28
7.4.4 Stormwater Storage Facility Certification…… 7-28

Contents

7.4.5 Operation and Maintenance..... 7-29

7.5 FEMA REQUIREMENTS..... 7-30
7.5.1 Floodplain Protection Ordinance..... 7-30
7.5.2 Permanent Open Space..... 7-30
7.5.3 Building Elevation..... 7-31
7.5.4 Bridges..... 7-31
7.5.4 Installation of Fill Materials..... 7-31
7.5.5 Filling in Floodplain..... 7-32
7.5.6 Conditional Letter of Map Revision..... 7-32
7.5.7 Letter of Map Revision..... 7-32
